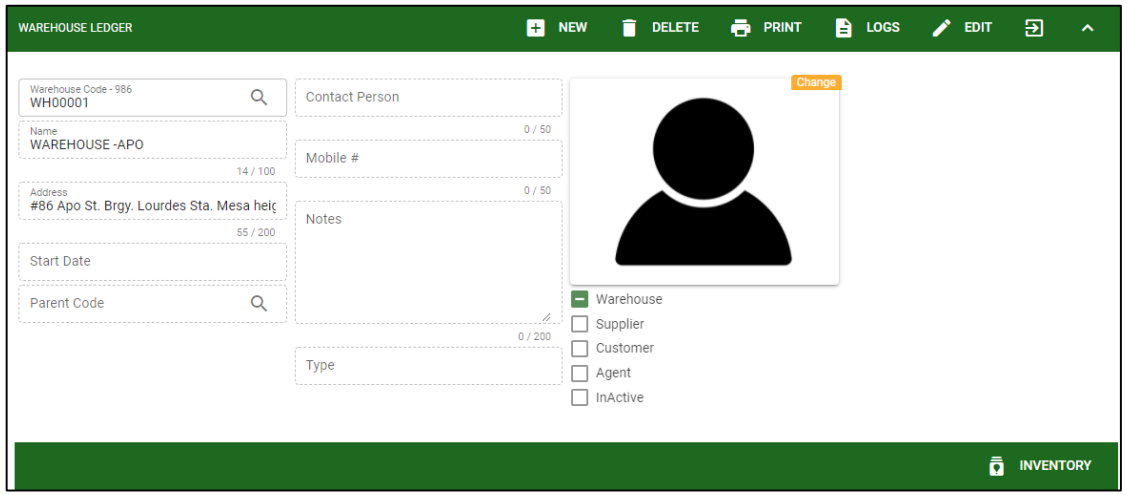
WAREHOUSE LEDGER

KNOW HOW TO CREATE NEW WAREHOUSE

a. Click the ***CREATE*** button to create new warehouse.

b. To set-up the details of the warehouse see the example image below.



- The user will encode the warehouse code, warehouse name and the address. Other fields are for other information for warehouse
- Warehouse can be tag same with customer and supplier ledger.
- If the warehouse is not active anymore but already had a previous transaction the user can ***INACTIVE*** the warehouse.

KNOW HOW TO VIEW INVENTORY TRANSACTION IN WAREHOUSE

Click the ***INVENTORY*** to generate inventory transaction created under particular warehouse. Generating inventory transaction is same procedure with other modules in Masterfile. Link to Know how to generate transaction history
